  Jenkins, Bitbucket, GitHub
  Actions

Language

- Hindi
- English

Summary

Results-driven ReactJS Developer with 3+ years of experience in building scalable web applications. Skilled in ReactJS,TypeScript, Git, and Jenkins, with expertise in UI optimization and CI/CD implementation. Passionate about user-centric solutions and Agile development.

Experience

Software Engineer   2023 –Present

Techvalens Software Systems | Indore,MP,India

Developed scalable React.js applications with optimized performance, built reusable UI components to streamline development, integrated APIs to enhance frontend-backend communication, ensured responsive and user-friendly UI/UX designs, and contributed to Agile sprints, code reviews, and team collaboration.

Associate Software Engineer   2022 - 2023

Webkorps Services | Indore,MP,India

Optimized a ReactJS web application, reducing load time by 40% and enhancing user engagement. Integrated TypeScript for scalability, cutting runtime errors by 30%, and led Jenkins CI/CD pipelines, reducing deployment time by 50%. Developed reusable components, integrated APIs, and improved performance through cross-team collaboration.

Projects

Evluate (AI-Based Applicant Assessment System)

- Developed interactive UI components to streamline the assessment process.
- Optimized performance for smooth user experience across devices.
- Collaborated with backend developers to ensure seamless API integrations.
- **Tech Stack:** React.js, JavaScript, SASS, ES6, Jira.

Asset Panda 2.0 (Asset Tracking Platform)

- Designed and implemented key features for asset management and tracking.
- Created intuitive UI layouts for improved user experience.
- Worked on Redux-based state management and REST API integrations.
- **Tech Stack:** React.js, TypeScript, Tailwind CSS, Redux.

Nandani Enterprises (Enterprise Management System)

- Built a feature-rich dashboard for managing attendance, payments, and user data.
- Integrated QR code scanning and authentication mechanisms.
- **Tech Stack:** React.js, JavaScript ES6, HTML5, SASS.

Augmentt (SaaS Security Management Platform)

- Developed security monitoring and threat alert configurations.
- Integrated third-party tools like Autotask and ConnectWise.
- **Tech Stack:** React.js, JavaScript, Redux, WebHooks, ES6.
